

**30.12.2021**

Ages before our times, a notion characterised our forbearers and has remained part of us to this day: **ubuNtu | boTho**: We, the children, the grand- and great-grandchildren of **uNtabayezulu** and **uMaZungu**.

*"I am, since we are; because we are, therefore am I."*

*"Ich bin, weil wir sind, da wir sind, also bin ich."*

**30.12.2021** reminds us of the day we had to let go one of the most loving and most caring persons ever - **ubuNtu in person**, my brother **Bongani** - a noble and yet naturally simple and humble person, **umuntu phaqqa!** 😊

**We are in these days again together** to eagerly recall the many happy moments with our loved **Bongani**. We dine and sing joyfully and thereby gain strength in the mid of sorrow and distress. We regain hope to withstand and overcome the many challenges and hardships facing us.

**KHUMALO**
